

will be sufficient to ensure that the...  
management. This example clearly demonstrates that the...  
political office... their existence... only apply to the...  
level of higher political office.

### Conclusion

It seems obvious that the existing hypotheses, relating...  
of internal... conflict resolution should not be based on the...  
unit for analysis. I...  
level of the local community. Following...  
used and conditions to see the...  
interdependent variables measuring the frequency of...  
between and between non-territorial groups...  
the most maximal unit of authority. The...  
management among non-territorial groups...  
component with...  
levelship.

A number of...  
higher levels of authority...  
To assess the effect of...  
frequency of external warfare...  
unit. For the construction of the variables I have...  
especially by Ross (1963). The variables had to be...  
were not related to the maximal unit of authority...  
independent variable has to relate to a unit above...  
otherwise an explanation of internal violence...  
would not be possible.

So far I cannot yet present you the results of a...  
operationalized like outlined. The variables I have...  
of analyses taken from the...  
started. Nevertheless a preliminary analysis...  
hypotheses have confirmed my reasoning. I have...  
political buffer above the level of the local...  
of internal warfare and looked for evidence of...  
about indices of political integration. The position...  
has been found to be
